50 Best Lenders for This Financing

50 private credit desks ranked on the first lien healthcare facilities they actually hold.

Read from the SEC schedules of investments of 365 business development companies on 2026-09-20: 190 comparable facilities across 179 borrowers, 70 lenders screened, 16 refused with reasons, 50 ranked with the evidence, the co-lender pairs and the contact path for each.

PREPARED	CLIENT	MANDATE	CLASSIFICATION

SECTION 01 · EXECUTIVE SUMMARY

50 lenders that have actually financed this kind of deal

DFX read the brief as a search for lenders with observed, currently held, first lien positions in healthcare borrowers with facility sizes the BDC tape can see between $20M and $200M, entered since 2023-01-01. The tape holds **190 such facilities** across **179 borrowers**, held by **70 distinct lenders**. 16 were refused (the ledger in Section 09 says why) and the 50 below are ranked on what each has done, never on what it says it does.

190	50	47	$11.3B
COMPARABLE FACILITIES ON THE TAPE	LENDERS RANKED	ENTERED A COMPARABLE IN THE LAST 12 MONTHS	COMPARABLE PRINCIPAL HELD BY THE 50

WHAT CHANGES

A debt process for this profile can open with the 15 lenders at the top of Section 07 rather than a generic list: each has entered at least one comparable first-lien facility in the window, 40 of the 50 have financed a named sponsor on those deals, and the marks on their comparable books say which ones are still writing this paper at par. The refused list is as useful as the ranked one: it names the lenders whose comparable exposure is stale, passive or marked down, which a term sheet would otherwise discover in week three.

SECTION 02 · THE QUESTION, AND HOW DFX READ IT

The brief, as given

> We need $60M of unitranche debt for a sponsor-backed healthcare services platform with $12M EBITDA in the Southeast. Find the lenders that have funded comparable deals in the last 24 months and who they lent beside.

Interpreted as

CRITERION	READING	APPLIED ON THE TAPE AS
Instrument	first lien debt	`lien = first_lien` and `is_debt`
Industry	healthcare	filer-written industry contains `health` (22 distinct labels, listed in Section 04)
Size	facilities the tape sizes at $20M to $200M	`size_lower_bound` between the two; a lower bound, never the commitment
Window	entered since 2023-01-01	`first_observed_as_of >= 2023-01-01`
Geography	Southeast US	**not applied**: a BDC schedule carries no borrower state; DFX holds a headquarters state (GLEIF) on 32 of 190 comparables, too few to rank on, so lenders are ranked nationally and the limitation is printed in Section 11
Sponsor involvement	sponsor-backed platform	sponsor attribution where the tape names one; absent on most facilities and never inferred

SECTION 03 · METHODOLOGY AND DATA ESTATE

Where every number comes from

Every row in this report was read on 2026-09-20 from the DFX private credit graph, which is built from the schedules of investments that business development companies file with the SEC each quarter (Form 10-Q and 10-K), resolved into one facility per borrower and instrument and one lender per adviser. The graph carries 885,000 positions across 365 BDCs. A facility's size here is the sum of the pieces BDCs disclose, so it is a lower bound; a facility held only by banks or by non-filing funds is invisible to this method and is not claimed.

The ranking framework

FACTOR	WEIGHT	WHAT IT MEASURES
Comparable facilities	35%	count of matching facilities the lender currently holds, log-scaled against the leader
Recency	20%	months since the lender last entered a comparable, decaying to zero at 24 months
Size fit	15%	share of its comparables sized inside the brief's band

FACTOR	WEIGHT	WHAT IT MEASURES
Book health	15%	average mark on cost across its comparables, scaled from 0.85 (zero) to 1.00 (full)
Sponsor breadth	15%	distinct named sponsors financed on its comparables, log-scaled
A stated mandate, a website, a conference deck: none of these enter the score. The score is observed behaviour, and each lender's page prints the observations behind it.

5. **MS Capital Partners Adviser INC.** holds 12 comparable facilities ($461M principal), newest entered 2026-06-30, comparable book marked 0.991 on cost, sponsors financed include Clayton, Dubilier & Rice, LLC, Linden Capital Partners, Shamrock Capital Advisors, LLC.

WHERE THE PAPER IS NOT AT PAR

Bcpc Advisors, LP marks its comparable book at 0.915; Onex Credit Advisor, LLC marks its comparable book at 0.947; TCW Asset Management Company LLC marks its comparable book at 0.947; Pacific Investment Management Company LLC marks its comparable book at 0.940. These lenders remain ranked because their comparable count is real, but a borrower should expect tighter terms from a desk that is carrying marked-down exposure in the same industry.

A lender that appears beside the same partners on comparable deals is a lender that will bring them into a club; the pairs above are where a $60M unitranche is most likely to be syndicated among two or three of the ranked names.

SECTION 09 · KILL TESTS AND REFUSED CANDIDATES

16 lenders screened out, with reasons

Kill tests applied to the ranked list

1. **Does the lender hold the paper today?** Only `currently_held` facilities count; a lender that exited is not credited with the deal.
2. **Is the comparable real?** Same lien, filer-written industry in the family, size inside the band, entered inside the window.
3. **Is the exposure alive?** One stale comparable is not a track record; it is refused.
4. **Is the desk still writing this?** A comparable book marked under 0.85 is refused; under 0.95 is flagged in Section 05.
5. **Is it a lead or a passive piece?** No hold above $2M on any comparable is refused as syndicate noise.
6. **Is it the same house twice?** A feeder or sub-adviser of a ranked lender is refused so the list is fifty desks, not fifty tickers.

SECTION 10 · WHO SHOULD CARE, AND THE DECISION THAT CHANGES

READER	DECISION THIS CHANGES
The sponsor or CFO raising the debt	Which fifteen desks get the first call, and which to skip because their comparable book is marked down or stale
The debt advisor running the process	The club structure: the co-lender pairs in Section 08 are the syndicates that already exist on this paper

READER	DECISION THIS CHANGES
A lender on the list	Where it sits against the desks it competes with on this industry, and which sponsors it has not yet financed
An allocator diligencing a credit manager	Whether a manager's claimed healthcare franchise is visible on its own filed schedules

SECTION 11 · SOURCES AND LIMITATIONS

Sources

- SEC Form 10-Q and 10-K schedules of investments filed by business development companies, read quarterly, resolved by DFX into facilities and lenders (pc_pub_facility, pc_pub_facility_lender, pc_pub_position_latest). Each facility line in Section 07 links to the filing it was read from.
- SEC Form ADV for the adviser behind each filing vehicle (pc_pub_provider).
- DFX contact plane (df_org_contact): people and published lines with their source and the date last observed.

Limitations, stated

- **Sizes are lower bounds.** A facility's size is the sum of the pieces BDCs disclose. A $60M unitranche held mostly by a non-filing fund reads as a smaller facility here, or not at all.
- **Geography is thin.** A BDC schedule does not carry the borrower's state; DFX adds a headquarters state from the GLEIF record where an unambiguous name match exists (about one comparable in six today, basis and confidence printed). A regional brief is answered on that subset or nationally, and says which.
- **Sponsor attribution is partial.** The tape names a sponsor on a minority of facilities; the rest are not sponsorless, they are unattributed.
- **Industry is as the filer wrote it.** Fourteen spellings of healthcare are matched by a contains rule; a borrower a filer tagged as 'Services' is missed.
- **Marks are the lenders' own.** A mark on cost is the BDC's fair value against its cost; it is a lender's opinion filed under oath, not a price.
- **As of.** Read on 2026-09-20; the newest quarter on the tape is the latest 10-Q the filers have lodged.

This is a sample edition. Business emails are masked; a paid order carries them in full with provenance, and the contact path is enriched for every ranked lender before delivery.
