Market Opportunity Report

The 100 companies that define US healthcare provider services, with their owners, their lenders and the capital moving in and out.

Read from the BDC schedules and the private equity record on 2026-09-29:
280 companies held, 61 departed, 47 refused with reasons, 100 ranked, with deal flow by quarter, sponsors, lenders, entrants and exits.

SAMPLE EDITION · PREPARED BY DFX INTELLIGENCE

SECTION 01 · EXECUTIVE SUMMARY

US healthcare provider services, mapped from the lenders' own filings

DFX read the brief as a map of the companies the market's lenders themselves file under health care providers and services. The BDC schedules hold **280 such companies** today and **61 that have left**, with **\$18.7B of principal held**. 47 were refused with reasons, 125 were read in full, and the 100 below are ranked on scale and activity: the debt held, the breadth of the lender group, dated add-ons and lenders joining, and how recent the newest fact is.

280COMPANIES ON THE
LENDERS' BOOKS**\$13.3B**PRINCIPAL HELD BY
THE 100 MAPPED**43 / 18**ENTERED / LEFT IN
FOUR QUARTERS**8**OF THE 100 WITH AN
OWNER NAMED**WHAT CHANGES**

A strategy or diligence team can start from who actually finances and owns this market rather than a league table. 69 credit managers finance the 100, the five largest hold 46% of the principal, and 43 companies entered the lenders' books in four quarters against 18 that left. The entrants are the newly financed platforms; the exits are the refinancings and sales to explain before a thesis assumes the market is still consolidating.

SECTION 02 · THE QUESTION, AND HOW DFX READ IT

The brief, as given

Map the US healthcare provider services market: the platforms, their sponsors, their lenders, the add-ons in the last 24 months, and the companies entering and leaving the lenders' books.

Interpreted as

CRITERION	READING	APPLIED ON THE RECORD AS
Market	US healthcare provider services	companies filed under an industry label containing 'health care providers' or 'healthcare providers' on BDC schedules (15 spellings)
Platforms	the market's companies, largest first	280 held at the latest quarter end; the 125 largest read in full
Sponsors	who owns each company	a source-stated current investment, an active owner on the private equity record, or the sponsor on a published capital path
Lenders	who finances each company	credit managers behind the BDCs holding a facility at the latest quarter end, with their own figures
Add-ons, last 24 months	dated since 2024-09-29	the private equity record's dated add-ons on each linked company
Entrants and exits	where the capital is moving	first and last quarter on any BDC schedule
Geography	United States	not filterable: schedules carry no address; foreign legal forms are refused and listed
Independents still unowned	companies with no sponsor	not answered: a company with no lender on a BDC schedule is invisible to this map, and no owner named is not the same as unowned

SECTION 03 · METHODOLOGY AND DATA ESTATE

Where every number comes from

Every company in this map was read on the day of generation from the schedules of investments that business development companies file with the SEC each quarter, resolved into one record per borrower with every lender's own principal, fair value and maturity. Owners come from DFX's identity layer (a source-stated current investment), the private equity transaction record, and the published capital paths. Add-ons are dated press-release transactions. Principal is the sum of the pieces BDCs disclose: a lower bound, never the facility size; a bank or a lender that files no schedule is invisible to this method.

663 reads were made for this document, across these datasets:

DATASET	WHAT IT CONTRIBUTED
The private credit facility tape	borrowers by the filer's industry label, held and departed
Each borrower's facilities and the lenders holding them	the lender group and the credit manager behind each BDC
A borrower's capital structure across lenders	the owner from the identity layer, and the tape's dated changes

DATASET	WHAT IT CONTRIBUTED
Company records across graphs, with their owners	the private equity record's owners on a linked company
Dated private equity transactions	dated acquisitions and add-ons
Private equity platforms and their observed add-ons	platforms making add-ons in the sector
The lenders beside each sponsor	each leading sponsor's lenders across its whole book
The canonical identity layer: the same institution across graphs	read for every ranked target
Shared-identifier cross references (CRD, CIK, EIN)	read for every ranked target
Published capital paths (allocator to fund to manager to company)	read for every ranked target

The ranking framework

FACTOR	WEIGHT	WHAT IT MEASURES
Scale	40%	principal held across the lender group at the latest quarter end, log-scaled against the largest
Breadth	20%	BDC lenders holding a piece, log-scaled: how widely the market's lenders have underwritten it
Activity	25%	dated add-ons in 24 months on the private equity record plus lenders joining in 12 months on the tape, log-scaled
Recency	15%	days since the newest dated fact on the company, decaying to zero at 24 months

A stated mandate, a website, a conference deck: none of these outrank observed behaviour. Each target's card prints the observations behind its score.

SECTION 04 · SEARCH UNIVERSE

280 candidates screened, 47 refused, 100 ranked

- 'health care providers': 214 companies held at the latest quarter end in 9 pages, 260 held or departed (the whole matching tape)
- 'healthcare providers': 66 companies held at the latest quarter end in 3 pages, 88 held or departed (the whole matching tape)
- 280 distinct companies held and 61 departed; spellings of the label: Health Care Providers & Services (237); Healthcare Providers and Services (71); Health care providers & services (12); Health care providers and services (6); Healthcare Providers And Services (5); Healthcare Providers & Services (5)
- 47 refused, 125 read in full (lender group, owner, dated changes), 100 ranked
- 12 platforms on the private equity record filed under healthcare with an add-on in 24 months

SECTION 05 · TOP FINDINGS

What the record says

1. **Concentration.** HPS Advisors, LLC holds the most principal in the map (\$1.6B across 13 companies); the five largest managers hold 46%.
2. **Flow.** 43 companies first appeared on a schedule in the last four quarters and 18 left every schedule; across eight quarters the record dates 14 add-ons on the mapped companies and the sector's platforms.
3. **Ownership is thinly attributed.** 8 of the 100 carry a named owner on the record; 92 carry none, which is a gap in attribution, never evidence of independence.
4. **Who is buying.** 14 of the 100 link to the private equity record and 0 of those carry a dated add-on in 24 months there; the add-ons the record dates sit with 12 platforms it files under healthcare. On the lenders' side, 54 of the 100 added a lender in 12 months.
5. **Veterinary sits inside this label.** Blue River Pet Care, LLC, Heartland Veterinary Partners, LLC, Rarebreed Veterinary Partners, Inc are filed by the lenders under health care providers and services, which is why a veterinary brief maps from here.

READ THE OWNER COLUMN WITH CARE

92 of the 100 companies carry no named owner. Most companies on a BDC schedule are sponsor-backed; the record simply has not attributed the sponsor. The map never fills that gap with a name stem or a guess.

SECTION 06 · DEAL FLOW BY QUARTER

Who entered the lenders' books, who left, and the add-ons dated each quarter

Read from the BDC schedules for every company filed under the market's labels (324 companies, held and departed) and from the private equity record for the add-ons. A company enters in the quarter it first appears on any schedule, and leaves in the quarter after the last one that holds it. Add-ons are the dated add-ons of the ranked companies linked to the private equity record and of the 12 platforms that record files under healthcare with an add-on in 24 months; the same platform on the same day counts once.

QUARTER	COMPANIES ENTERING	PRINCIPAL THEY HOLD TODAY	COMPANIES LEAVING	DATED ADD-ONS
2024 Q3	9	\$263M	4	0
2024 Q4	32	\$624M	4	4
2025 Q1	7	\$690M	7	1
2025 Q2	7	\$755M	14	3
2025 Q3	11	\$489M	7	0
2025 Q4	16	\$498M	8	2
2026 Q1	8	\$174M	3	3
2026 Q2	8	\$299M	0	1

SECTION 07 · SPONSORS BY PLATFORM COUNT

8 owners named across the 100 companies

An owner is named only where the record states it: a source-stated current investment (the identity layer), an active owner on the private equity record, or the sponsor on a published capital path. The last column is the number of lenders beside that sponsor across its whole book, where the sponsor resolves to the credit graph.

SPONSOR	COMPANIES IN THIS MAP	PRINCIPAL HELD AT THEM	COMPANIES	LENDERS ACROSS ITS BOOK
Stone Point Capital LLC	1	\$366M	Tivity Health, Inc	25+
Linden Capital Partners	1	\$98M	Pinnacle Treatment Centers, Inc	25+
Revelstoke Capital Partners	1	\$93M	Rarebreed Veterinary Partners, Inc	12

Waud Capital Partners	1	\$34M	Ivy Rehab	22
Leonard Green & Partners, L.P.	1	\$32M	CHG Healthcare Services, Inc	25+

SECTION 08 · LENDERS BY EXPOSURE

69 credit managers finance the 100; the five largest hold 46% of the principal

Principal is each manager's own filed pieces, summed across the BDCs it advises. Share is of the principal held across the mapped companies.

LENDER	COMPANIES FINANCED	PRINCIPAL HELD	SHARE	BDCS FILING
HPS Advisors, LLC	13	\$1.6B	11.8%	2
Goldman Sachs Asset Management, L.P	14	\$1.3B	9.5%	5

SECTION 10 · EXITS

18 companies gone from every schedule in four quarters

A company leaves when no BDC holds it at a quarter end: repaid, refinanced away from the BDC lenders, sold, or written off. The tape records the departure, not the reason, and this report does not guess one.

COMPANY	LAST QUARTER HELD	FIRST ON A SCHEDULE	BDC LENDERS AT THE END
American Physicaln Partners, LLC	2025-12-31	2025-12-31	1
Interventional Management Services, LLC	2025-12-31	2021-11-17	1

Cyan Investors LP	no principal held at the latest quarter end: an unfunded or equity line only
WCP Ivyrehab Coinvestment, LP	no principal held at the latest quarter end: an unfunded or equity line only
ACG Parent Holdings, LP	no principal held at the latest quarter end: an unfunded or equity line only
USN Opco LLC	no facility still held once its facilities were read: it has left every schedule
Ensemble Health Ensemble RCM, LLC	no facility still held once its facilities were read: it has left every schedule
Plastic Management, LLC	no facility still held once its facilities were read: it has left every schedule

Kill tests applied to the ranked list

1. The name reads as an operating company, not an instrument or a vehicle line on a schedule.
2. The legal form is not foreign (a US map; the schedule carries no address, so the refusal names the legal form).
3. Principal is held at the latest quarter end, on the tape card and again once every facility is read.
4. An owner is printed only with its basis; a credit arm listed as an owner is a lender and is dropped.

SECTION 16 · WHO SHOULD CARE, AND THE DECISION THAT CHANGES

READER	DECISION THIS CHANGES
Strategy consultants	which platforms and sponsors define the market today, from the record rather than a league table
Corporate development at a strategic	which consolidators are adding on now, and who finances them
Private equity deal teams	who else owns platforms here, and which lenders already know the space
Direct lenders	where the incumbents are concentrated, and which companies left the book (refinancing opportunities)

SECTION 17 · SOURCES AND LIMITATIONS

Sources

- SEC Form 10-Q and 10-K schedules of investments of every business development company, each quarter since 2022 (the BDC tape).
- DFX identity layer: graded borrower to company links and source-stated current investments.
- Private equity transaction record: press releases and sponsor announcements, each with its URL.
- Published capital paths (sponsor to company to facility to lender).

Limitations, stated

- The market is the lenders' own label. A company filed under another label (a filer calling a physician group 'health care services') is outside the map, and a label can hold companies a strategist would place elsewhere (health care technology filed as providers); the filer's label is printed on every card.
- Principal is a lower bound: the pieces BDCs disclose. Banks, CLOs and lenders that file no schedule are invisible, so a company financed only by banks is not on this map.
- Owners are named on a minority of companies. The absence of a named owner is a gap in attribution, never evidence the company is independent.
- Add-ons are counted only where the company links to the private equity record; a company with no link shows none, which is the record's coverage, not inactivity.
- An exit is a departure from every BDC schedule; the tape does not say whether it was a repayment, a refinancing or a sale, and this report does not guess.
- Enterprise values and revenues are not printed: the record discloses them rarely and nothing here estimates one.
- **Contacts in this document are counts.** How many verified routes and reachable people DFX holds at each target, never an address or a number. The named person and the route are released on a paid order, with the source and the date verified, under the resale rule that governs each source.
- **As of.** Read on 2026-09-29; each fact carries the date of the filing or observation it came from.

This is a sample edition, generated from the live graph for the brief above. A paid order is cut to the buyer's own brief and carries the named person at each target with provenance.

SECTION FINAL · DISCLOSURES

Important disclosures

DFX Intelligence is a research firm. **We are not a broker-dealer, investment adviser, placement agent, or financial institution.** Nothing in this report constitutes investment advice, an offer to sell, or the solicitation of an offer to buy any security or interest in any fund or company.

The investor profiles and outreach pathways in this report are research synthesised from public records, regulatory filings, firm-disclosed materials, verified industry rosters, and press coverage. We do **not** guarantee that any investor profiled will respond, meet, invest, lead a round, or transact on any terms with the client. Past investment activity is not a prediction of future activity, and an investor's prior thesis may have shifted between the recency cutoff date and the date this report is read.

We do not have access to non-public fund commitments, individual partner preferences, or confidential portfolio positions. All "fit" assessments are DFX Intelligence's read from public signal and are explicitly contestable. The client is responsible for conducting its own due diligence on every name listed, including independently verifying current employment, role, mandate, regulatory status, and any other material claim before engaging in outreach or transactions.

Where individual people are named, their inclusion is based on publicly disclosed roles at the time of the recency cutoff. People move; titles change. Re-verify before sending.

This report is **confidential** and intended only for the named client. Re-distribution to any third party (including by forward, screenshot, or reproduction) is not authorised without DFX Intelligence's written consent.

Engaging with the opportunities described in this report involves risk. Capital raises can fail, dilute existing holders, trigger anti-dilution mechanics, expose the company to regulatory scrutiny, and produce financial and legal consequences. Clients should seek qualified legal, tax, securities, and accounting advice before acting on any element of this report.

By engaging with this report, the named client agrees to DFX Intelligence's Terms of Service and Privacy Policy as currently published at dfxintel.com.
